DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 17-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 is vague. The second zone recited in claim 12 only contains a releasable labeled specific binding reagent so how is a response detected in the second zone when the label does not stay in the second zone? The claimed method is vague because it is directed to quantitation of two analyte but the device of claim 12 only appears to provide for the detection of a single analyte.

While Applicants have amended claim 17 to make the claim clearer, the remaining issues noted above have not been addressed. Detection in the device of claim 12 appears to happen in the third region since the third region contains immobilized reagent specific for analyte/labeled binding partner complexes. The immobilized reagent would bind and retain the analyte complexes in the third region and detection of bound analyte is done via the label bound to the analyte. Also, the device of claim 12 only provides for the detection of a single analyte and the reference analyte. But claim 17 is directed to the detection of a first and a second analyte using the device of claim 12. It would appear that claim 17 should be directed to the detection of an analyte and the reference analyte referred to in claim 12 and not a second analyte.

Allowable Subject Matter

2. Claims 12-16 are allowed.
3. Claims 17-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
